James Clar Lights
...And God said, "Let there be light." And then man said, "Can you might it a soft light with a diffuse luminescence?" And then James Clar said, "Both of these things are boring, so I am going to create crazy lights that make you want to freak out and do the Liquid in your living room because they are so bright, colorful, shiny and amazing. And maybe I'll make a light in a suitcase and one made out of a cube and while I'm at it, why not a trippy wire thing?" And the people spoke, and they judged that it was good.
